ABOUT US

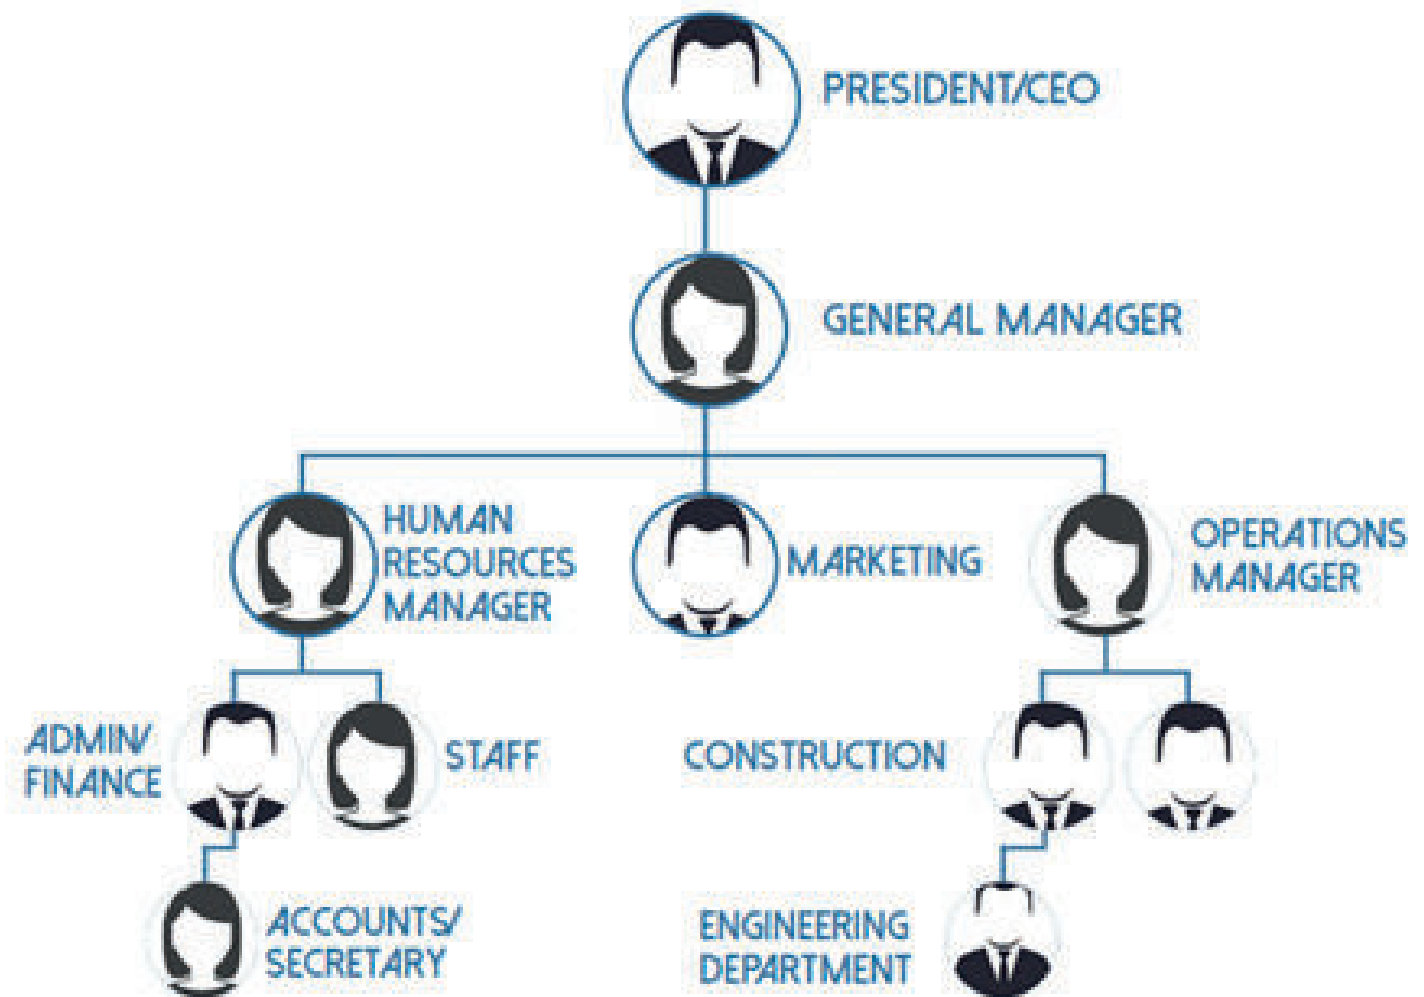

Smart Engineering & Contractors Co. (SECCO)

As a leading construction company, with almost two decades of experience within a multitude of highly-skilled industries, we are the premier choice for contractor business works in Eastern Africa. From our main office in Mogadishu, Somalia, we deliver expert-led, high-quality services within a range of countries, from Somalia to South Sudan, as well as Kenya and Uganda, we pride ourselves in delivering significant, ambitious solutions, each and every time.

Since becoming officially registered in 2003, we have built up a highly-qualified team of specialists, who work together seamlessly to deliver far-reaching construction solutions, such as road, water and building works, the installation of solar panels, and much more. Our multidisciplinary team have built an extensive arsenal of tools, to deliver the finest quality of work on offer in the region, so you can rest assured that your project is in the safest of hands.

Our innovative approach to projects, through our analytic eye and strategic thinking, has led us to be able to deliver forward-thinking solutions. We continually think about the future of our projects, and how we can streamline them to stand the test of time, no matter what the elements throw at them. This strategy has cemented our reputation as a reliable construction firm, with stellar-quality infrastructure and construction work.

When your business is on the line, it's vital to put your trust in a reputable company who place importance on excellence. With global clients, including UN organizations such as UNICEF, WFP, UNSOS, UNOPS, IOM and UNDP, as well as World Bank, USAID, ICRC and Adam Smith International, we are renowned for delivering elite, systematic construction solutions to leading companies internationally. Don't settle, choose SECCO.

Mission

To sustain the high level of qualified personnel and build a professional team committed to serve our clients. Our pledge is to establish lasting relationships with our customers by exceeding their expectations and gaining their trust, through exceptional performance by every member of the construction team

Vision

To be the leading local firm in the East and Central Africa for Construction and Civil works infrastructure. SECCO will strive to offer excellent services by providing high quality of work, applying the latest available technology for the industry, and seeking more joint ventures with international companies to have the opportunity in higher weighted project.

Our Services

Our extensive selection of services means we can deliver advanced solutions throughout your project's lifecycle, from conception to completion. We provide a hands-on approach to our work, delivering expert levels of work in the following areas:

- Construction & Rehabilitation of Roads
- Construction of waterworks
- Construction of buildings Works (New buildings or renovations)
- Installation of Solar Works
- Life Support Services
- Facility Management Services
- Supply Chain Management
- Supply of Skilled and Unskilled Labor

Through our strong communication skills, we develop positive business relationships, which coupled with our stellar quality of work, will leave you coming back to us time and time again. Impactful results, every time.

Our Services

Construction & Rehabilitation of Roads

Whether it's a new or current road network, we are experienced in delivering comprehensive solutions to ensure complete safety and efficiency for road users. Our specialist teams provide support during the planning process, as well as highly-skilled construction, surfacing and preservation, to create durable, resistant networks which will provide exceptional ROIs. No matter the type of road you need, from paved to gravel, we can assist.

Construction of waterworks

Making water accessible to our clients is an incredibly rewarding role for our teams. We have dedicated techniques to be able to provide clean, sanitised water, through a range of means, depending on the needs of the community.

Borehole drilling makes up a large portion of our work, as well as specialist lining to ensure our high-quality standards are future-proof, delivering an incredible ROI. Longevity lies at the heart of our construction work, meaning high-quality, superior work is non-negotiable.

Construction of buildings Works (New buildings or renovations)

By providing a wide range of building works, we are exceptionally versatile, with an ability to work on projects of all scopes. With SECCO, there is no need to source various providers – we work seamlessly to provide advanced solutions at every stage, simplifying the process for you.

From large multi-story infrastructure projects to industrial developments, and much more, we provide high-quality, cost-effective construction work, to produce stunning results.

Installation of Solar Works

Providing power to even the most remote of communities, solar panels create sustainable, cost-effective energy solutions, without the need for maintenance costs. With highly-experienced teams, adept within both construction and electrical engineering, we can efficiently install solar works, providing instant power to the region. We take pride in our track record of delivering successful projects in tumultuous conflict zones, providing power to those most in need.

Our Services

Life Support Services

We pride ourselves in delivering stellar life support services, to communities across the East Africa region. Fully compliant with all relevant national guidelines, we are dedicated to providing exceptional quality of life within the areas that we work.

We have an extraordinary toolkit to be able to deliver reliable services to those in need, with a remarkable ability to source suitable equipment safely and efficiently. Here at SECCO, we stray from the 'one size fits all' approach – each service is bespoke to our client, tailoring our support to each community, so we can deliver the very best care on offer.

Facility Management Services

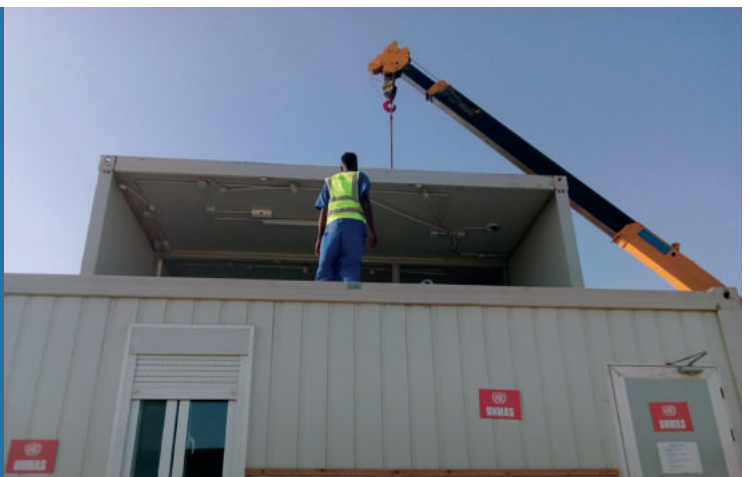

Our fully-comprehensive solutions to facility management have led to us securing contracts with some incredibly notable clients in the region. From ground maintenance to catering, and cleaning to laundry, as well as everything in between, we are the go-to for a reliable team of experienced facility managers.

Whether it's an unskilled task, to the incredibly complex, such as the installation of electrical systems and power distribution, we take pride in delivering powerful solutions, with unrivalled levels of attention to detail.

Supply Chain Management

We provide a wide range of services within supply chain management, from goods consolidation to inventory control, and software solutions and delivery via air, road or sea. We specialise in complex projects, so whether your cargo requires customs clearance or sophisticated measures, we are on-hand to ensure complete door-to-door efficiency and safety.

With almost two decades of experience, we have extensive knowledge on what it takes to ensure your cargo reaches its destination seamlessly, with specialist logistics to ensure delivery to even the most remote of sites.

Supply of Skilled and Unskilled Labour

Versatility is second nature to us, here at SECCO. From small-scale projects, which require minimally skilled labour, to complex, multifaceted projects, where we employ a hand-selected team of highly-trained labourers, we can realize your vision efficiently.

Benefiting communities across the East Africa region with our future-proof, highly curated, impactful solutions, we provide an unbeatable return on investment for projects of all types and scopes, which is why we are renowned as a leading construction firm from skilled to unskilled labour.
